

Programme for LIF Seminars June 22nd, 23rd, 29th and 30th at Glasgow, Manchester, Birmingham and London respectively.

Seminar title: **Drivers of Change in Lighting**

Seminar structure: A half day seminar (10 a.m. to 1 p.m. on each date plus a buffet lunch).

Programme:

10.00 Welcome and introduction

- Environmental/climate changes as a driver of change
- Technology as a driver of change
- Resulting challenges and opportunities

10.05 Regulatory changes:

- Introduction
- Energy using Products (EuP) Regulatory changes for 2010 and beyond
- WEEE – review of current EU Directive and potential consequences
- Battery Recycling – implications for lighting of the 2009 Regulations
- RoHS – review of current EU Directive and potential consequences
- Emergency Lighting – update on current regulatory requirements
- The importance of Compliance to Regulations – protection of brand value
- “Carrots” to complement the Regulatory “Sticks”
 - Financial incentives to invest in energy efficient lighting
 - Industry Award Scheme to recognise energy efficient improvements

11.15 Coffee break

11.30 Technology Developments:

- Product changes resulting from the various EuP implementation steps
- LEDs technology update and product/application developments
- Growing influence of lighting controls and systems
- Emergency Lighting product developments
- Product design for sustainability e.g. end-of-life recyclability/re-use; minimise use of materials etc.

12.40 Influence of Lighting design:

- Compliance with standards
- Investment vs running costs
- Integrity of design through to installation

13.00 Working lunch and Open Forum/Q&A

NB: This open forum session will not have a fixed duration.

All timings are approximate and the programme may be updated from time to time
21st April – Issue 1/et
